Rare Pokémon One-time encounter Pokémon such as Cobalion, Virizion, Volcarona, Braviary etc. Some of the trades within the game have also been edited, and given much better IVs. The Pokémon that appear within the Hidden Grottos around Unova have also been changed. Ever thought you couldn't find Articuno in front of Twist Mountain, or Kyogre within the Abyssal Ruins? Gym Leaders will also have differing Pokémon amounts depending on the mode you play; Normal Mode will have them with anywhere from 3 to 5 Pokémon, whereas Challenge Mode will pit you against a full team of six. That's all there is to it; the main link here exists simply because Croudun appears in the same map that Heatan does. You now actually do get Chimchar in Autumn from the Harlequin. picu2001 - The scripting knowledge he posted over at Project Pokémon's forums which helped getting things like the legends working correctly. Mienfoo's evolution level has also been fixed, and Pawniard has had its evolution level lowered. You can find it in a small grove on Route 16 after talking to a Veteran in Humilau City's Pokmon Center. #244 ENTEIEntei is encountered at Level 50. STARTER & LEGENDARY GUIDESStarters are found a bit different to other Pokmon. Others There have been some text edits; a couple of these are sprinkled references, but for the most part it's to make the item changes make sense with the dialogue. Note that the Iron Key and Iceberg Key are obtained from an NPC instead. #380 LATTIAS / #381 LATIOSLattias and Latios have been moved from their original position at the Dreamyard to the outside of the Dragonspiral Tower, though they only appear there after talking to a Veteran who appears after catching Kyurem. In addition, Juniper's speech at the beginning has been changed; this is the tip-off that you've got the hack working correctly. This guy will only appear after you've battled the original Kyurem (i.e. the one that you can actually capture, not Black or White Kyurem). You'll also be able to find a lot of evolution items on the map somewhere, such as the Reaper Cloth, Up-Grade and Protector. Evolution There's also been some changes to evolutions. You can find it just outside Chargestone Cave after talking to a Veteran in Humilau City's Pokmon Center. #146 MOLTRESMoltres is encountered at Level 50. Some erroneous text has been corrected. Examples include the ability to buy Luxury Balls in Virbank City, Heart Scales and shards in Driftveil City, and any sort of evolution item you want in the Route 9 department store. Probably. A couple of the Poké Marts around the region have had some edits. If you're desperate, insert this into a/0/1/9 using NitroExplorer. Exhaustive lists for the Hidden Grotto Pokmon encounters are listed in the Wild List document. As for legends, having them available in the wild is an aesthetic crime, and back in Blaze Black and Volt White it was always quite an awkward thing - albeit necessary - to do. The locations of these Harlequins and what season gets you what is listed below. Can't actually fix the keys not being given to you without a save file, as that's a restriction with the engine. Vanilla excludes the following: Any Pokémon changes except for compatibility with the three new TMs. Changes to Level Up movesets. The legends will generally be revealed after talking to a specific person or performing a certain action; these are explored in detail on the next page. User guide Wild encounter The wild Pokémon have been edited in each and every area of the game. knives09 - The logos at the top were made by him. Other changes include: Leafaon and Glaceon are now obtainable through new items known as the Woodland Ore and Frozen Ore, to get around their areas being post-game. The main feature is that all 649 Pokémon are available for capture somewhere in the game, and the trainers have all had their rosters changed in order to maintain a much harder challenge than the original game, as well as having an increased variety of opponents to fight. Some of the flag numbers have been swapped around, which will hopefully fix the legendary bug, but unfortunately that's not a guarantee. Budew's Special Defense has been corrected. As a result, it is just found ordinarily in the wild.THE FIRST STARTER GIFT - VIRBANK CITYThe left picture here shows the position of the house in which the Harlequin lies, and the right is where he is inside. It'll show up after you talk to the Veteran who appears after defeating Kyurem. #385 JIRACHIJirachi takes the Lat twins' original place in the Dreamyard. These can include the level up moves they learn, the abilities they get, their compatibility with Move Tutors and TMs, and even their base stats. The picture on the bottom right shows a Veteran in Giant Chasm. For example, using a Magmarizer on a Magmar to evolve it - to do what you would normally need to trade for. Credits Kaphotics - He's been great as both an advisor and a researcher into the workings of scripts in the game. Changes to Attacks. However, Blaze Black 2 and Volt White 2 have a little upgrade, and legends are now actually found on the map using their overworld sprites. It will make an appearance after you've battled with Heatan in Reversal Mountain. #384 RAYQUAZARayquaza makes an appearance in Dragonspiral Tower at Level 75. There's no way to fix this entirely, yet. It'll show up there after you've had a battle with Heatan in Reversal Mountain. #383 GROUDONGroudon is found in the same place as Heatan in Reversal Mountain - at Level 75. Most Pokémon with useful DW abilities will be present somewhere. You will now get the Bicycle no matter where you talk to the gate guard from. For Kyogre and Groudon, you simply need to do the Heatan event, have had their levels raised in order to fit with the new level curve. Notable changes include much earlier Flamethrower and Thunderbolt TMs, and even an Earthquake TM as early as the fifth gym! Doesn't quite beat Platinum, but it's close to. Certain trainers have their moves changed since they don't gain the new techniques they would in the Complete version. They are both at Level 68, as normal. #382 KYOGREKyogre is also found on the first floor of the Abyssal Ruins at Level 75. As before, they each appear at Level 65. #483 DIALGA / #484 PALKIABoth members of this duo will appear within Dragonspiral Tower after talking to the Veteran who appears after battling Kyurem. The Elite Four and Champion also hold some surprises in Challenge Mode. Their rules are mostly the same as Spirit Gold, as scripting to Sacred Gold & Storm Silver level is difficult currently due to the lack of scripting tool (at least as I write this). After battling Heatan, Kyogre and Groudon will both appear in their locations. So basically, just pick whichever color takes your fancy. The exception to this at present are the Dome trainers. This has also raised the level curve of the game, meaning you can expect to beat the first round of the Elite Four somewhere in the 70s level-wise. Please note that Regirock itself will no longer give out any keys, but this new method allows you to obtain both keys on both versions, allowing you to get all three Regi and Regigigas as a result. Talking to him will unlock most of the 580 base stat total legends that are new. To be specific, that is Articuno, Zapdos, Moltres, Raikou, Entei, Suicune, Tornados, Thundurus and Keldeo. There have been a couple small changes to some of the trainer rosters. Changelog V1.1 2012/11/11 The newer AP patch by RetroGameFan is now being used, so those of you using DSTWO should hopefully get past the PWT fine. Note that Phone is not counted as a legendary for the purposes of this guide. There are actually two Harlequins in Castelia City who give you starters, to be sure to find both! The Pokmon this one can give you are as follows SPRING SUMMER AUTUMN WINTERTORCHIC Level 10 Fire Available as Combusken in Route 6 Cave Grotto.BULBASAUR Level 10 Grass / Poison Available as Iysaur in Lostlorn Forest Grotto.TOTODILE Level 10 Water Available as Croconaw in Route 5 Grotto.CHARMANDER Level 10 Fire Available as Charmeleon in Route 7 Grotto.Please note that you can only receive one of these four starters from the Harlequin! His LUA scripting abilities were also used for figuring out file numbers and co-ordinates. The King's Rock will not currently work on Slowpoke, so Slowking is impossible to obtain short of catching it in the Wild directly. You can find it atop the waterfall in Lostlorn Forest after talking to a Veteran in Giant Chasm after battling with the original Kyurem. #243 RAIKOURaikou is encountered at Level 50. Talking to him will allow every other legendary not already mentioned to appear, including Mewtwo, Mew, Lugia, Ho-oh, Celebi, Latias, Latios, Rayquaza, Deoxys, Reshiram, Zekrom, Landorus, Meloetta, and Genesect. There have been a couple extra edits to stats, most notably Plusle, Minun and Emboar. Many thanks to any supporters and the people who've helped and suggested ideas along the way. The Pokémon breeders aren't currently set with teams to help you EV your Pokémon. You can find it in the south-western part of the Desert Resort after talking to a Veteran in Humilau City's Pokmon Center. #245 SUICUNESuicune is encountered at Level 50. Most areas now contain at least 8 Pokémon species, and in most cases, more. Which starter you can receive from the Harlequins depends on the season. You can find it on a ledge outside of Reversal Mountain after talking to a Veteran in Humilau City's Pokmon Center. #150 MEWtwoMewtwo is encountered at Level 75. Pokegirl4ever - The Genesect overworld sprite used in the game is her work. Most notably Gym Leaders, your rival and the Elite Four have all been made significantly tougher. Also learnt about RAM editing from him, which made testing some things that much easier. There's also been some TM replacements. You can find it on a high point on Route 13 after talking to a Veteran in Humilau City's Pokmon Center. #249 LUGIALugia is encountered at Level 75, found on the first floor of the Abyssal Ruins after talking to a Veteran in Giant Chasm after battling with the original Kyurem. For those who evolve by trade but don't need an item, a new item called the Covenant Ore has been introduced and is available in several places through the game; it works like an evolutionary stone, so you're still able to evolve them at any time. Now, on to the legends!LEGENDARYACTIVATORThe picture on the top left shows the Veteran in Humilau City's Pokmon Center. Some attacks have also been edited, for example the Pledge moves having 100 base power or Cut now being a Grass-type move. Poliwahl, however, is fine. Note that any trades with Yancy and Curtis are not changed. He'll be there from the start of the game, so you can access him as soon as you reach Humilau City (i.e. after your seventh badge). Now you can. In the case of Registeel and Regice, you are able to get the Iron Key and Iceberg Key by talking to the female Veteran in one of the corners in the main room of the Sealed Chamber. Apart from the aforementioned over-worlds, there's also Gym Leader rematches outside the PWT, the ability to challenge Hoenn Leaders at various points in the game, Harlequins who will give out starters and even the ability to battle with Hilbert and Hilda. Items Items that you receive and find lying in the field have been changed considerably - this is generally done in order to bring almost all TMs available before the Elite Four are defeated. Ilikecarusew/kidinsic87 - Another very helpful contributor to the hack, he along with one other person helped with BETA testing. You'll be able to unlock a fraction of these around the eighth gym badge, then the rest sometime after the Pokémon League. This is also removed from the Vanilla version of the hack. External links Nishino now actually has his trainer sprite. A note has been added to save when the game starts. Use the west entrance. #250 HO-OHHo-oh is encountered at Level 75. Exhaustive lists for the Hidden Grotto Pokemon encounters are listed in the Wild List document.THE THIRD STARTER GIFT - CASTELIA CITYThe left picture here shows the position of the building in which the Harlequin lies, and the right is where he is inside. However, if this particular point doesn't appeal to you, the Vanilla version of the hack cuts it out. Trainers The rosters of almost all of the trainers in the game have been edited. You'll also be given the keys for Easy Mode and Challenge Mode almost right at the beginning of the game. Scyther will now work correctly with the Metal Coat. ROM information - Blaze Black 2 File Pokémon Black 2 [U] CRC: 6A42D36E ROM information - Volt White 2 File Pokémon White 2 [U] CRC: B72BBA42 Complete version includes all changes. It'll show up at level 68. #480 UXIE / #481 MESPRIT / #482 AZELThe Sinnoh legendary trio work exactly the same as they do in the original Black 2 and White 2. That's about it for the starter Pokémon. If you play the Vanilla version, this will be important in order to keep your Pokémon on par. They both appear at Level 75. #485 HEATRANHeatran is the same as in Black 2 and White 2, and still appears at Level 68. There's a document included that will tell you all you need to know. There are actually two Harlequins in Castelia City who give you starters, to be sure to find both! The Pokmon this one can give you are as follows SPRING SUMMER AUTUMN WINTERTURTLE Level 10 Grass Available as Grotle in Route 6 Field Grotto.MUDKIP Level 10 Water Available as Marshstomp in Route 13 left Grotto.CHIMCHAR Level 10 Fire Available as Monferno in Route 7 Grotto.CHIKORITA Level 10 Grass Available as Bayleef in Route 6 Field Grotto.Please note that you can only receive one of these four starters from the Harlequin! To get the remaining three, you will need to find them individually in the Hidden Grottos. Shelmet and Karrablast instead follow a Mantyke routine where the other needs to be in the party for them to evolve. Lazerith - The other beta tester, who is also a Pokémon hacker himself (Pokémon Origin Platinum is his work). Elekid and Magby now have a chance to hold an Electrizer and Magmarizer respectively. You'll be able to attain a complete PokéDex within the limits of the game itself, and the majority of Pokémon are available no later than the seventh badge, meaning you can form basically any team you want. Are you up to catching them all? This also makes Dream World abilities significantly easier to obtain. Screenshots Known issues Keys unlocking will not be saved if you don't save your game before getting them. In addition, there's also a much bigger variety of one-time encounters, mostly dealing with legends. The majority of these involve editing the trade evolutions; in most cases you will now simply be able to Use the item like an evolution stone. There's also a large amount of alternative features these hacks offer, which range from differences to the Pokémon themselves to the presence of a couple new TMs. The two versions only differ in terms of their aesthetic differences, such as the appearance of Opelucid City, the title screen, etc.
